ABOUT SLC

A WORLD LEADER IN MEDICAL ENGLISH

- ✓ Founded 2012 — Sussex Innovation Centre, University of Sussex, Brighton
- ✓ A world-leading provider of digital language services to the global healthcare sector
- ✓ First accredited OET Premium Preparation Provider in Europe (2017)
- ✓ Backed by the UK Department for Business and Trade
- ✓ Over 60,000 Medical English students worldwide — medicine, nursing, pharmacy, allied health, care
- ✓ Over 5,000 OET students to date

“

“It would have been a monumental effort to design medical English content for different contexts so we were fortunate to discover SLC’s offerings. The content is well designed, comprehensive, and presented in an intuitive platform for users at all technical skill levels.”

Daniel Ruelle, Director: Teaching and Learning
Excellence Center, VinUniversity, Vietnam

”

THE CHALLENGE

SOUND FAMILIAR?

Your students need Medical English to pass academic and professional exams, keep up with research, write articles, and succeed in clinical placements. But finding materials that are clinically accurate, profession-specific, up-to-date and at the right level is a constant challenge.

Materials don't go deep enough

General EAP courses don't cover handovers, triage, or breaking bad news. Textbooks date quickly.

Too many courses to manage

Licensing individual courses for different cohorts creates admin headaches and unpredictable costs.

No visibility on progress

Without robust reporting, it's impossible to track outcomes or intervene when students fall behind.

Simplify

One contract, one fee, one platform. Replace fragmented purchasing with a single agreement.

Save

Costs a fraction of individual subscriptions. The more students, the greater the value.

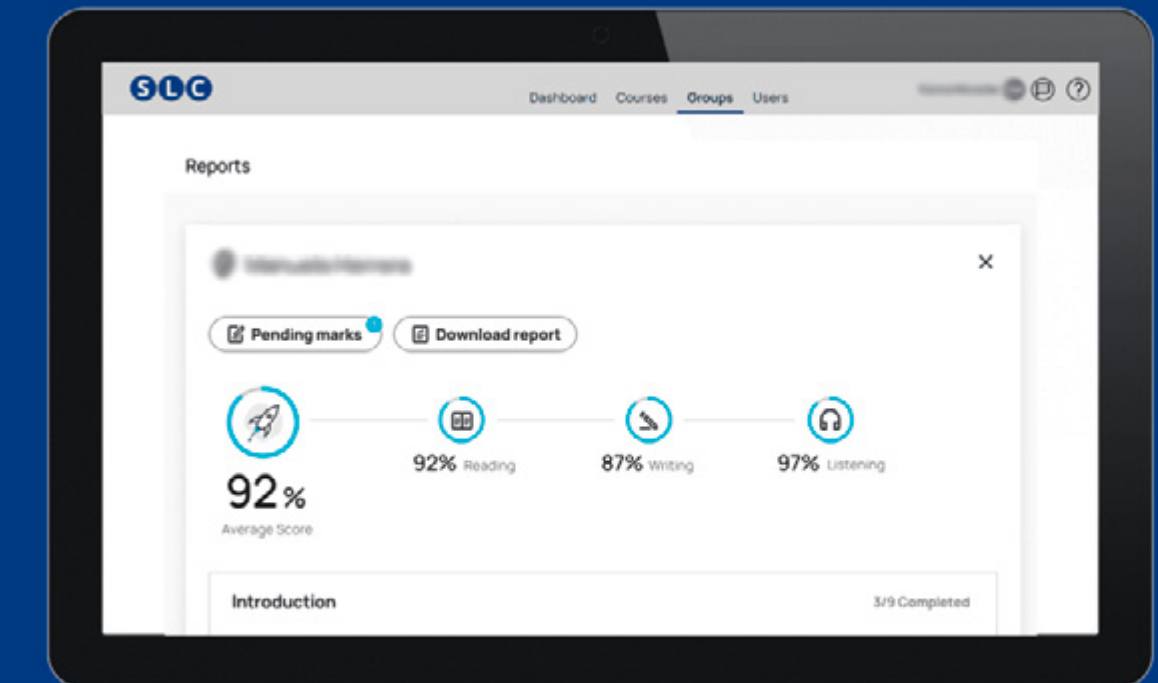

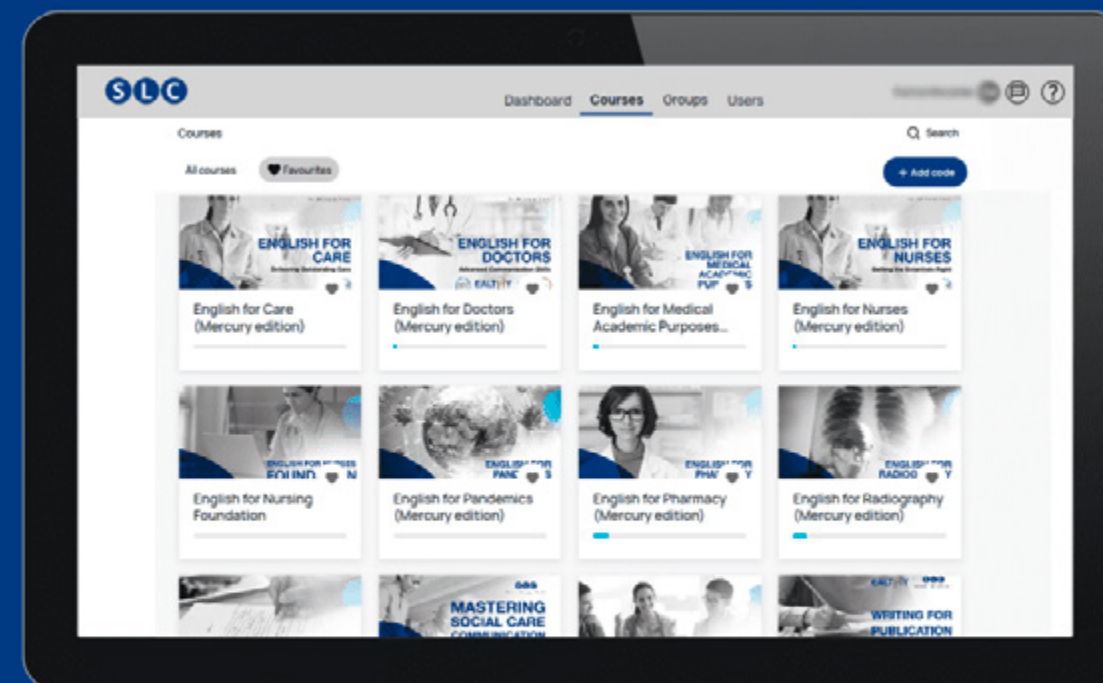

Scale

Add students any time. Use across departments and years without renegotiating.

THE SOLUTION

ONE LICENCE. TOTAL ACCESS.

SLC's institutional licence gives every enrolled student unlimited access to our entire library — for one simple monthly fee per student. No per-course fees. No content restrictions. No surprises.

WHAT'S INCLUDED — PART 1

PROFESSION-SPECIFIC COURSES

Every licence includes the full SLC content library — all current and future courses. Materials span A2 to C2, written by healthcare professionals and language experts, and continuously updated.

400+ hours of profession-specific content

Covering doctors, nurses, pharmacists,
radiographers, care workers and
social care professionals

English for Doctors

B2–C1 | 120 hours | 16 units

The language of the patient journey — from admission and history-taking through diagnosis, treatment, surgery and end-of-life care. Covers medical and everyday terminology, clinical communication frameworks, staff interactions, hospital documents, and research articles. Includes pronunciation, grammar and interactive recording activities.

English for Nurses

B1–B2 | 120 hours | 13 units

Covers multiple areas of care — patient admission, discussing pain, pressure area care, falls and injuries, IV therapy, infection control, breathing difficulties, medications, diabetes, cardiovascular conditions, mental health, surgery and end-of-life care. Rich in patient communication, pronunciation, grammar and nursing-specific vocabulary.

English for Nursing Foundation

A2–B1 | 60 hours | 10 units

Builds a strong foundation for elementary to intermediate learners. Covers patient admission, personal care, eating and drinking, mobility, pressure area care, pain, elderly care, falls, infection control and mental health. Media-rich with animated videos, voice recording, and interactive tasks.

English for Care

A2–B1 | 60 hours

For anyone building a foundation in care-specific English. Covers welcoming patients, managing food and drink, personal care, mobility, falls, infection control, pain management, elderly care and mental health. All content contextualised to real care scenarios with video, audio and recording.

WHAT'S INCLUDED — PART 1

PROFESSION-SPECIFIC COURSES

Every licence includes the full SLC content library — all current and future courses. Materials span A2 to C2, written by healthcare professionals and language experts, and continuously updated.

English for Pharmacy

B1–B2 | 20 hours

Targeted course covering dispensing vocabulary, patient counselling language, prescription terminology, drug interactions, dosage instructions and professional communication.

English for Radiography

B1–B2 | 30 hours

Specialist course covering imaging terminology, patient positioning instructions, safety protocols, communicating procedures to patients, and interpreting radiological reports.

Mastering Communication in Social Care

A2–B1 | 8 hours

Develops the English and communication skills needed for social care settings — working with service users, families and colleagues in community and residential environments.

“

“English for Doctors is a great platform for Distance Learning, especially for us, for Ukrainians who are going through difficult times now.

The English course has a clinical orientation. Comprehensive learning material is structured according to the classical scheme of patient examination and treatment. The platform contains many color diagrams and images to smoothly guide the students through otherwise very complex material.

Separately, I would like to note the very plausible dialogues that really take place in clinics and hospitals.

I am no stranger to the medical profession and I know what I’m talking about. Thirty years have passed since I graduated from the medical university, having been both a practitioner and a university lecturer in my time.

*It is with that background that I am delighted to say that **English for Doctors** is a very worthy addition to the academic English line.”*

Dr Tetiana Strelchenia,
English for Doctors

”

WHAT'S INCLUDED — PART 2

CROSS-SECTOR, ACADEMIC AND LANGUAGE SKILLS

“

“This course will help students use the right structure and language needed to write research articles and publish. I thoroughly enjoyed it and would recommend it to all medical students.”

Nadine Forbes, university lecturer,
Writing for Publication

”

English for Medical Academic Purposes

B2–C1 | 50 hours

The academic English healthcare students need — reading research, writing assignments, giving presentations, participating in seminars. Essential for international students on English-medium programmes.

Medical Terminology

A2–B2 | 30 hours

Systematic study of roots, prefixes, suffixes across body systems. The vocabulary foundation all healthcare students need.

Essential Grammar for Healthcare

A2–B1 | 30 hours

Contextualised grammar for lower-level healthcare students. Examples from real clinical and care scenarios.

Writing for Publication

B2–C2 | 30 hours

Hybrid course — online content with optional live workshops. Guides healthcare researchers through writing and publishing in English.

English for Pandemics

B1–B2 | 10 hours

Language of infection control, public health communication and pandemic response.

Advanced Grammar for Healthcare

B2–C1 | 30 hours

Accuracy in complex healthcare communication — case presentations, clinical reports, research writing.

WHAT'S INCLUDED — PART 3

EXAM PREPARATION

“

“This course provided me with all the information that I had been struggling with before. It is really a rewarding and inspiring course with a wide range of valuable information relevant to the OET exam. The best course I have studied.”

Amar Elmubarak, Reach OET B Medicine

”

Reach OET B Medicine

B2–C1 | 150 hours

Paper-by-paper, question-by-question preparation. Covers essential language, test techniques, marking criteria and strategies for all four sub-tests. Includes 3 full practice tests by OET test writers, 40+ video lessons from OET experts, grammar for OET units. Written by accredited OET trainers under the guidance of Virginia Allum.

OET Prepare (3 levels)

**A2, B1, B2 | 100 hours each
+ lesson plans**

Three-level preparation pathway, developed in partnership with OET, building students from elementary to exam readiness. 40 integrated lesson plans per level for classroom delivery, covering 60 hours of input. Ideal for structured preparation programmes across cohorts and ability levels.

Reach OET B Nursing

B2–C1 | 150 hours

Comprehensive nursing-specific preparation across all four papers. Highly interactive with voice recording, drag-and-drop, text analysis and writing comparison with model answers. Includes practice tests, video lessons, and B-grade strategies.

Reach IELTS

B2–C1 | 75 hours

Full IELTS Academic preparation covering Reading, Writing, Listening and Speaking. Includes practice tests, strategies, and academic English development for healthcare students targeting university admission or professional registration.

THE PLATFORM

BUILT FOR INSTITUTIONS

Your students, teachers, and administrators each get the tools they need — on a platform branded with your institution's identity.

For Programme Directors

- Institutional branding — your logo, colours, text
- Detailed reporting — completion, scores, time-on-task, CSV export
- Student management — cohorts, assignments, progress tracking
- Integration with Moodle, Blackboard, Canvas, Google Classroom

For Teachers

- Track student work, see scores at-a-glance
- Upload your own materials with built-in authoring tools
- Set assignments, monitor submissions, leave feedback
- Discussion forums and in-built messaging
- Free on-boarding and training, ongoing technical and academic support

For Students

- Study on any device — PC, tablet, phone, offline download
- Interactive activities — recording, drag-and-drop, matching, writing
- CPD-accredited certificates on completion
- Downloadable key language PDFs

“The course is so useful to me and my students in many ways such as knowing more about medical terminology, how to pronounce medical words, improving reading skills and listening.”

An Dam, Nursing Lecturer,
Da Nang University, Vietnam

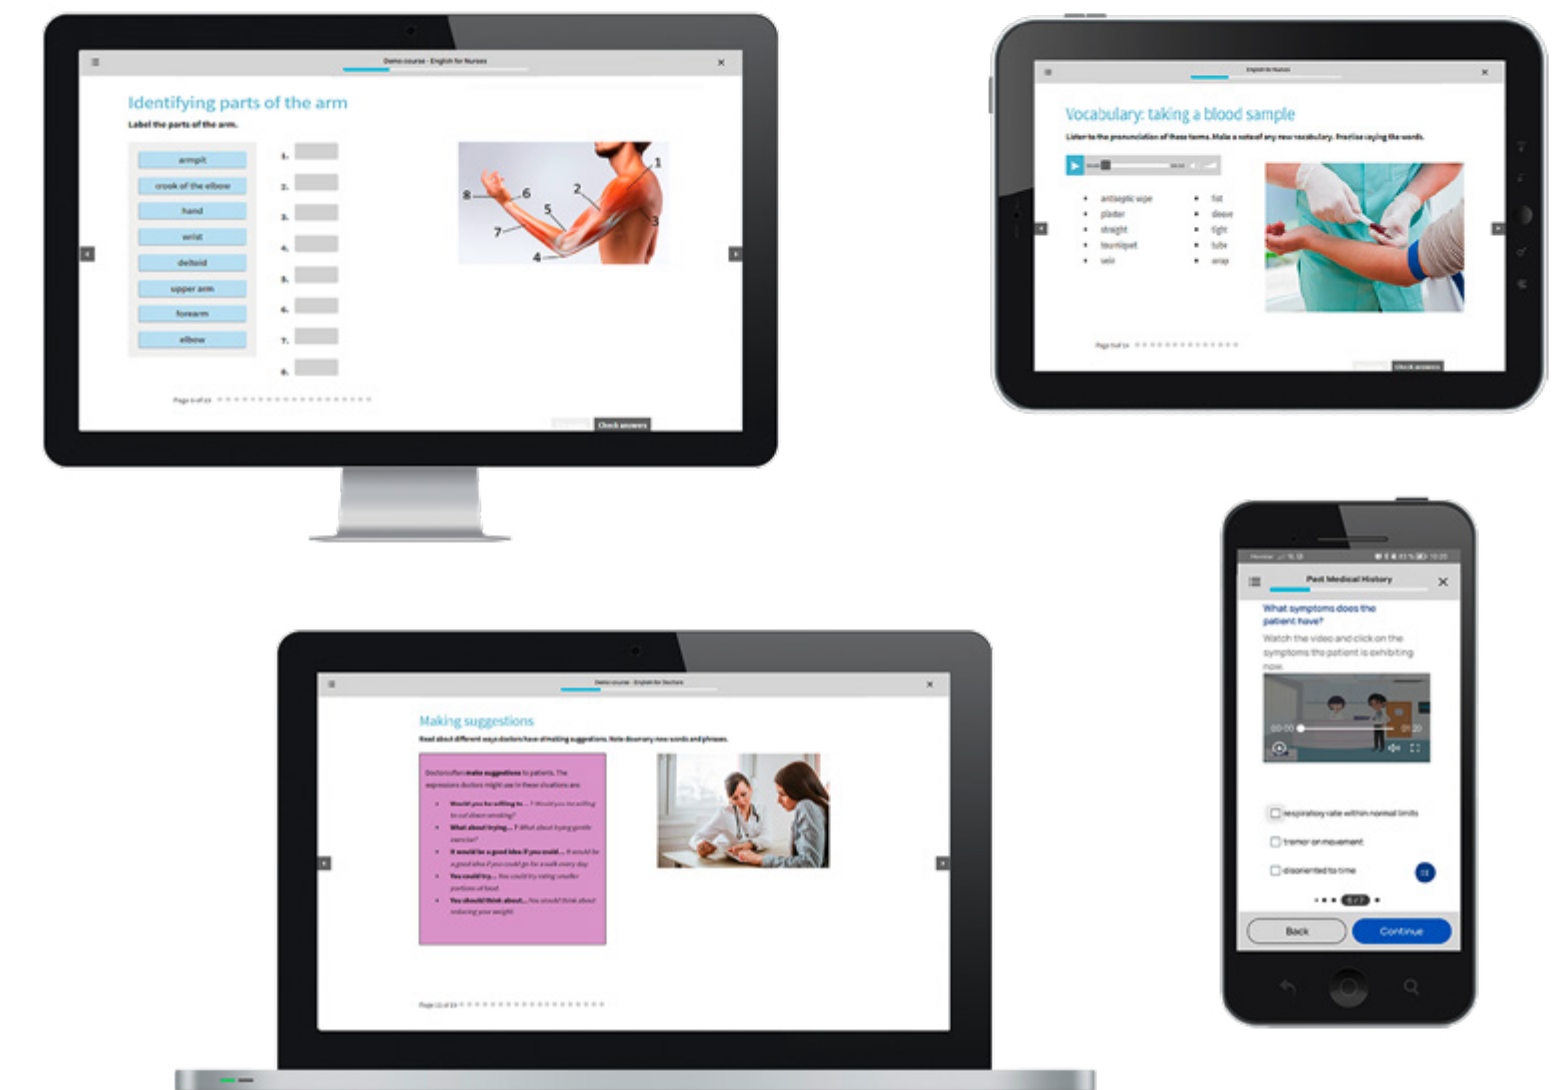

“SLC online courses are engaging and effective, and the specialized adaptable resources help support the demanding language training needs for our dynamic, international Life Sciences University in Italy.”

Patricia Taylor, Language Unit Coordinator,
Humanitas University, Milan

“Through the use of the online course, the Language and Culture Unit team has been able to provide extra English support for nursing students, of all levels, which in turn helps to enhance their learning experience.”

Christina Strachan, Online Course Coordinator, Royal College of Surgeons in Ireland — Medical University of Bahrain

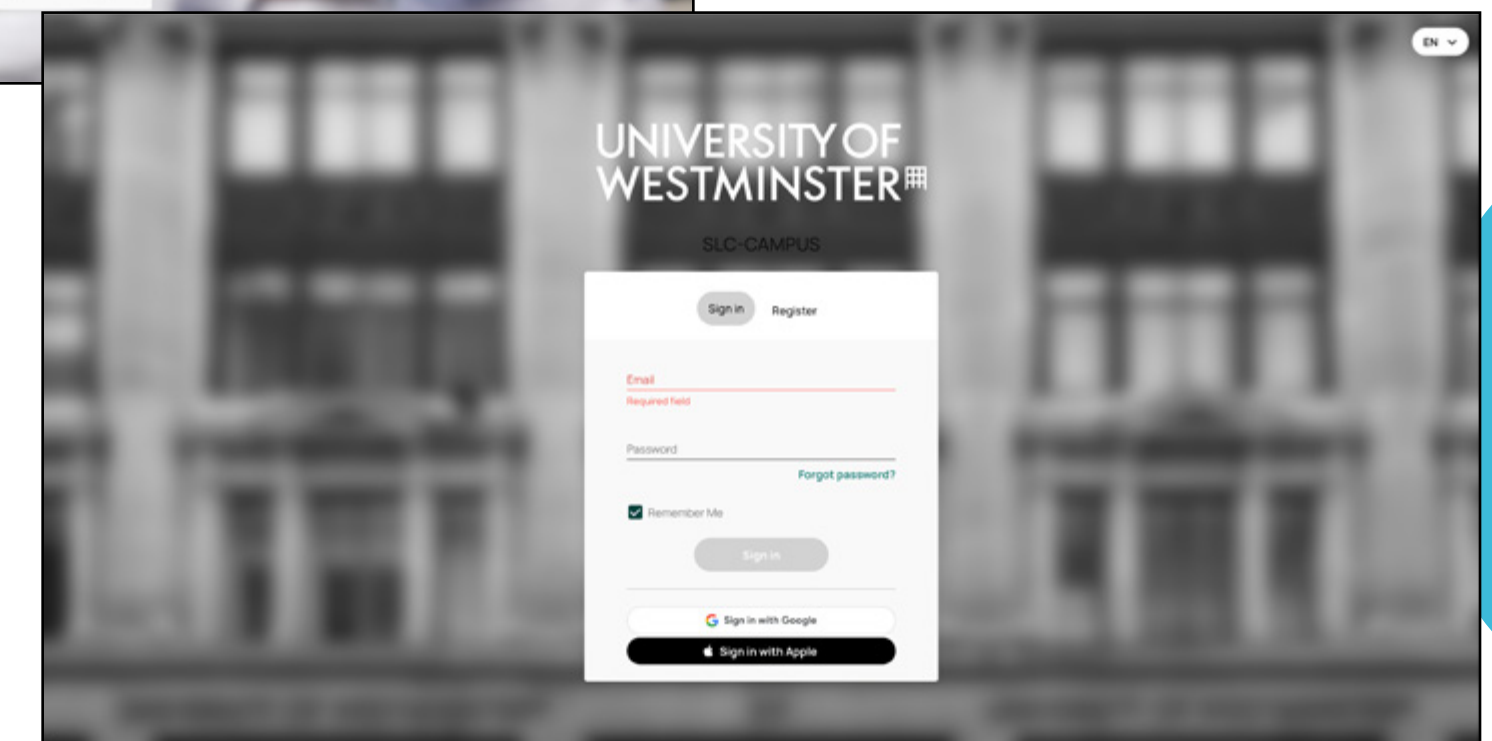

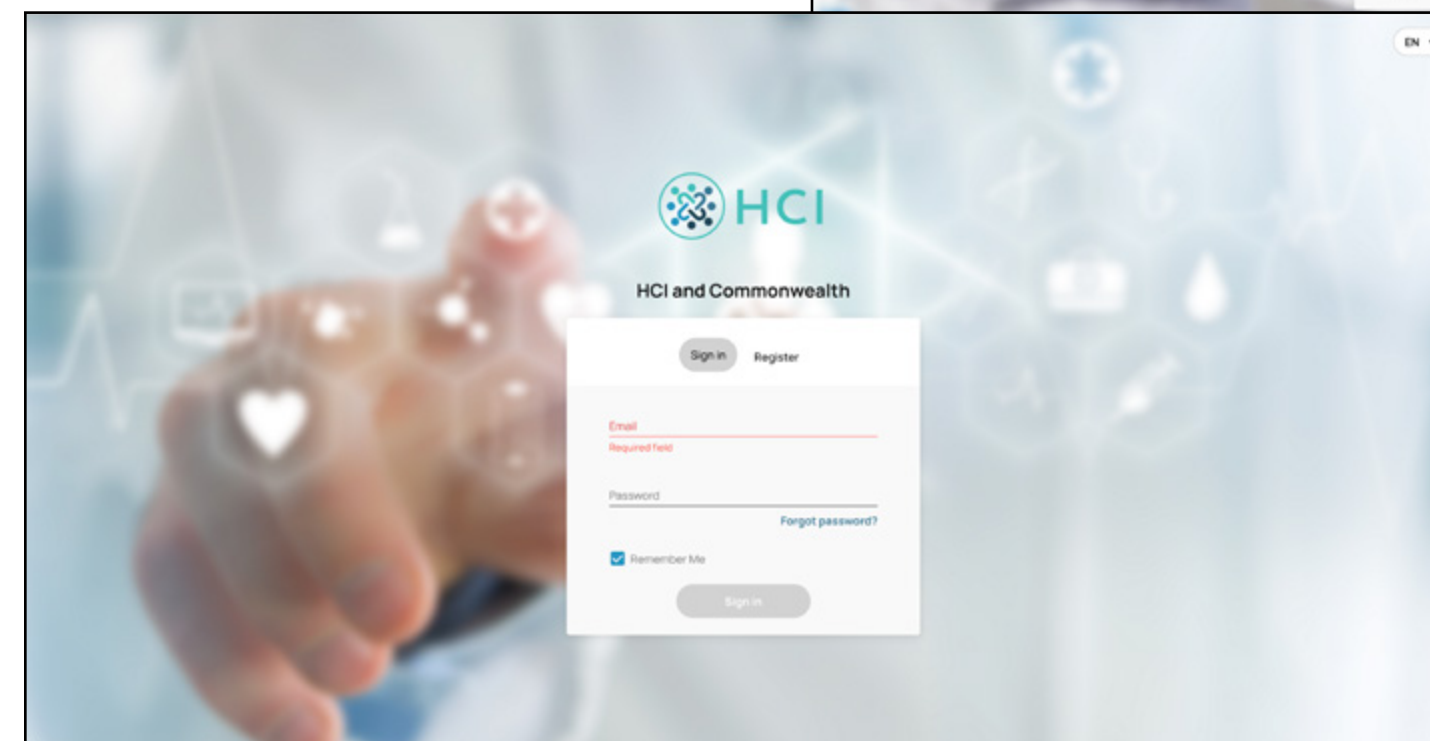

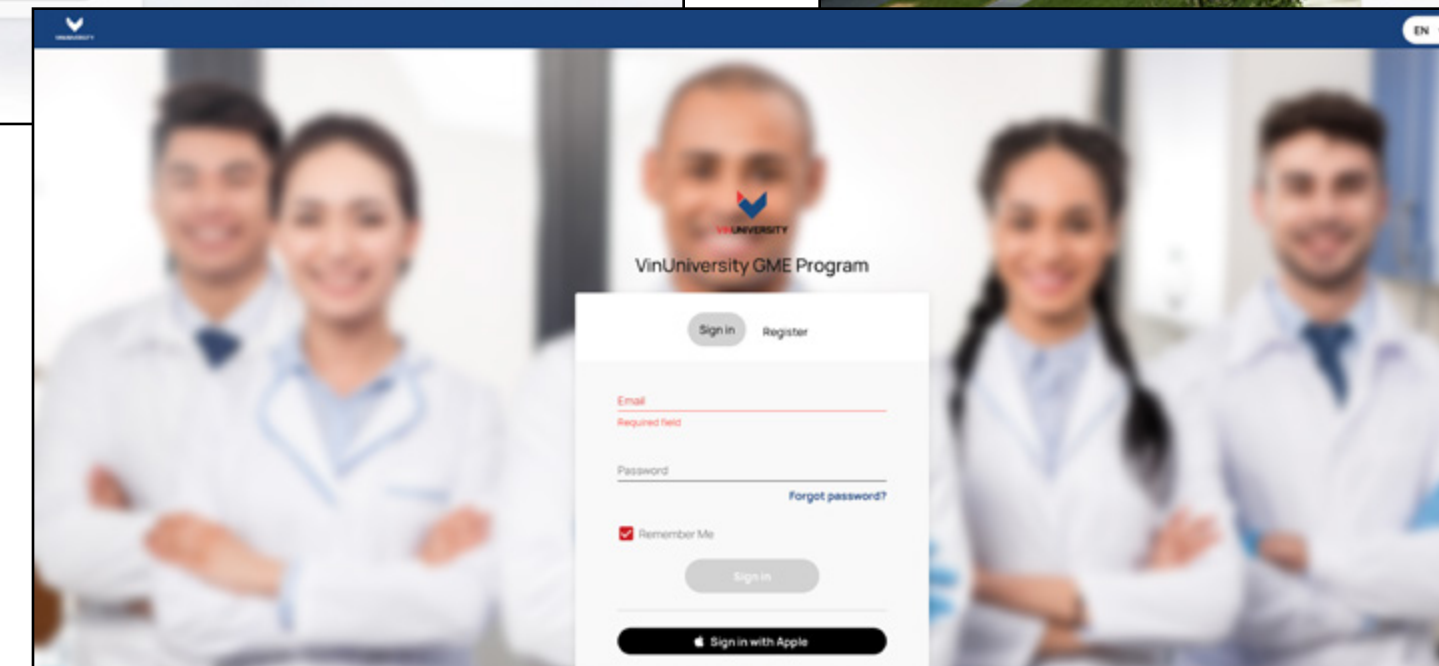

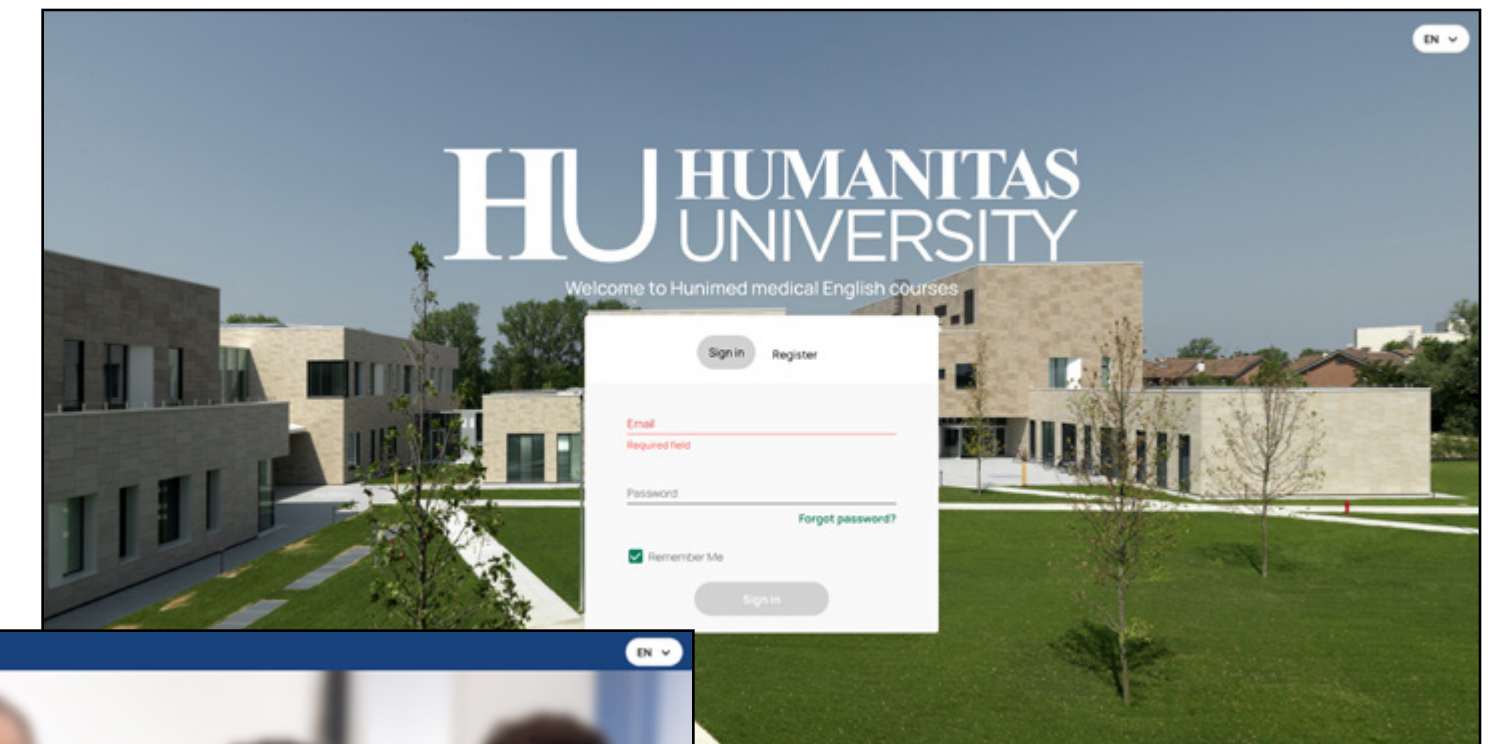

YOUR INSTITUTION AREA

CUSTOMISATION OPTIONS

Every institution gets its own secure area on the Learning Management System.

- ✓ Logos
- ✓ Colours
- ✓ Text
- ✓ Social media links

This means your students know they are in the right place for them. And there's no danger of crossing over with students from any other institution.

YOUR INSTITUTION AREA

CUSTOMISATION OPTIONS

Choose your courses

Do you want to give your students access to just some of the courses? No problem. Just let us know which ones, and we'll set this up for you at no cost.

Build your own courses

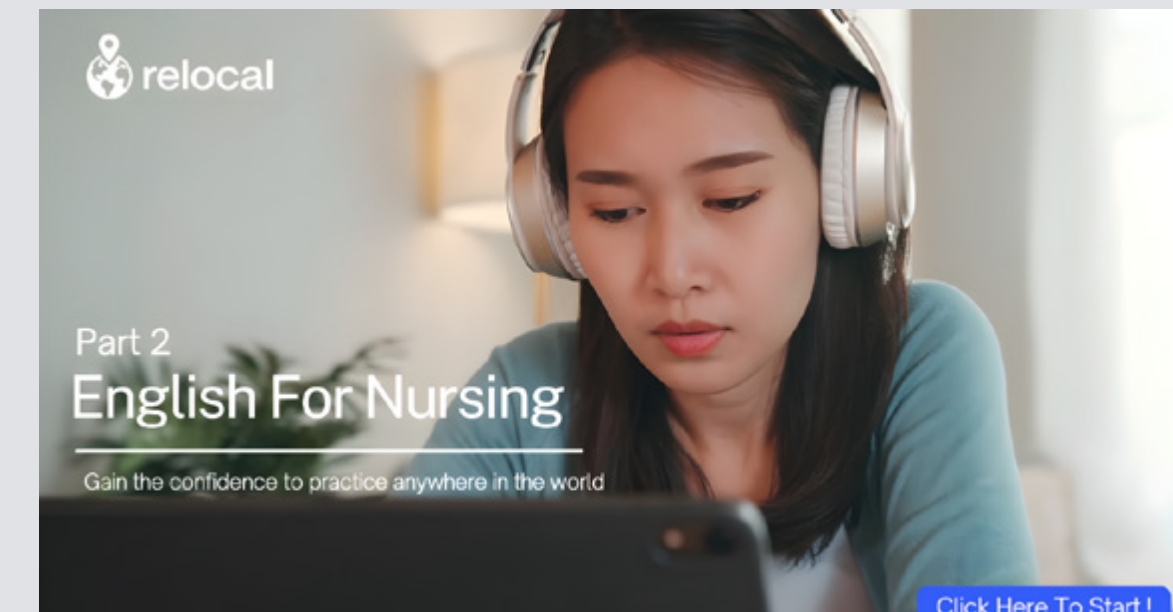

Choose the units you want from SLC's library. Tell us what order you'd like them in. We'll create your very own course(s), perfect for your students. This a quick, effective and low-cost option, enabling you to offer courses to your students that have been designed especially for them.

Set access for when you want.

You can give the courses to your students for as short or as long a time as you want. Just let us know what you need.

Assign your students into groups

Create groups of learners by class, cohort or year – whatever works for you.

TRUSTED WORLDWIDE

Taken from feedback provided by 2907 students in March 2024.

✓ Medical English specialists since 2014

✓ First accredited OET Premium Preparation Provider in Europe (2017)

✓ CPD Standards Office accredited – certificates recognised worldwide

✓ Endorsed by EALTHY, the global association for English for Healthcare teachers

✓ Backed by the UK Department for Business and Trade

“The course has helped to use English in such specific medical situations. It was very useful to listen to various dialogues with native speakers because it gave me opportunity to pick up many phrases used in real conversations.”

Matvey, medical student, English for Doctors

“I never had followed such an interesting way to learn a language. I really enjoyed it! The contents and the methods are perfect. I am sure it has helped me to get a better band score in my exam.”

Aliya Yerlan, English for Medical Academic Purposes

“It’s a very thorough course and provides you with useful terminology on different systems. It’s also nicely illustrated and works on listening and pronunciation skills, not just reading or writing”

Anna Lozano, Medical Terminology

“Very useful, it covers everything and explained it very well. I would highly recommend it to everybody.”

Agnes Hermoso, Reach OET B Nursing

“Learning this way is much more fun and efficient and I hope we get to have another course in our third year.”

Abeer, nursing student, English for Nurses

MEET THE WRITERS

Our materials writers are all well-known Medical English, OET and IELTS preparation experts.

Virginia Allum

Virginia is SLC's Head of Medical English, an internationally renowned Medical English and OET preparation author, exam writer, teacher trainer, and conference speaker. Virginia Allum is also a practising Registered Nurse, with years of practice in the UK and Australia.

Ros Wright

Ros Wright is a widely published writer, including books for CUP, Pearson, Express and Garnet, and expert in English for Healthcare and OET preparation, with over 20 years' experience working with healthcare professionals and students.

Catherine Richards

Catherine Richards is a highly experienced teacher, materials developer, OET item writer, Cambridge examiner and teacher trainer. Catherine is founder and director of EALTHY, the leading association for teachers of medical English.

Patrick Fitzgerald

Patrick is a published Medical English and English for Academic Purposes author and specialist. He is also an experienced teacher having worked for universities and schools in the UK and overseas.

Mark Waistell

Mark Waistell graduated in biochemistry before entering English language teaching. He is founder and Senior Partner of Accent International in the UK where he has taught, designed courses and led seminars for numerous global pharmaceutical companies.

Annelie Phillips

Annelie Phillips is a highly experienced IELTS and OET preparation trainer, materials writer and examiner, having taught for many years online and in different countries around the world.

Anthony Cosgrove

Anthony Cosgrove is an experienced IELTS test item writer, course book author and university lecturer who writes IELTS material for Cambridge University Press, the British Council and FutureLearn.

Professor John Skelton

John was Professor of Clinical Communication from 1992 to 2020, and Lead for Education Quality at Birmingham University College of Medical and Dental Sciences. He has published widely in Clinical Communication, Applied Linguistics and related areas. John is currently Emeritus Professor at the University of Birmingham and President of EALTHY.

GETTING STARTED

THREE SIMPLE STEPS

1

Book a Demonstration

Meet with SLC for a guided walkthrough of the platform, content, and reporting tools. We'll tailor the demo to your institution's specific programmes and needs.

2

Choose Your Model

Whether you need full institutional access, department-level licensing, or a pilot programme, we'll configure the right setup. One monthly fee per student, all content included.

3

Go Live

Your branded platform is set up, students enrolled, and teachers given access and training. Our team supports you throughout.

READY TO TRANSFORM YOUR MEDICAL ENGLISH PROGRAMME?

See how 850+ hours of accredited content, powerful reporting, and a simple per-student licence can work for your institution.
